A Cohesive Strategy for UK Repository Shared Services

Bringing together key UK repository services to deliver a connected national infrastructure to support open access

**Repository Shared Services Project**

- **CORE**
  
  [http://core.kmi.open.ac.uk](http://core.kmi.open.ac.uk)

  Aggregation of metadata and open access content from repositories and journals.

- **OpenDOAR**
  
  [http://www.opendoar.org](http://www.opendoar.org)

  The world’s authoritative and quality-assured directory of Open Access repositories.

- **IRUS-UK**
  
  [http://www.irus.mimas.ac.uk](http://www.irus.mimas.ac.uk)

  The Institutional Repository Usage Statistics service collects raw download data from UK IRs and processes into COUNTER-compliant, comparable, authoritative, standards-based usage statistics.

- **RIOXX**
  
  [http://rioxx.net](http://rioxx.net)

  Metadata profile allowing institutional repositories to share information about OA research papers and their compliance with funder policies.

- **V4OA**
  
  [http://v4oa.net](http://v4oa.net)

  Vocabularies for Open Access is a set of vocabularies to describe relevant features of OA papers, including version, licence, readability, APC status and embargo.

- **SHERPA FACT**
  
  [http://sherpa.ac.uk/fact](http://sherpa.ac.uk/fact)

  Advice to UK authors on compliance with funder’s policies in their journal of choice.

- **SHERPA JULIET**
  
  [http://www.sherpa.ac.uk/juliet](http://www.sherpa.ac.uk/juliet)

  Registry of Open Access policies from research funders worldwide.

- **SHERPA RoMEO**
  
  [http://www.sherpa.ac.uk/romeo](http://www.sherpa.ac.uk/romeo)

  Analysis of publisher policies for authors’ rights when using Open Access repositories.

- **Jisc Publications Router**
  
  [http://broker.edina.ac.uk](http://broker.edina.ac.uk)

  Automates direct delivery of scholarly works from multiple suppliers (such as publishers or subject repositories) to the appropriate individual repository.
